Professional Summary

Frontend Developer with 2 years of experience building high-performance React and Next.js applications using TypeScript. Skilled in component-driven architecture, API integration, state management, and responsive UI development. Focused on optimizing performance, accessibility, and user experience.

Technical Skills

Languages: JavaScript (ES6+), Typescript, Python, SQL, C, C++
Frontend: React.js, Next.js, Redux / Redux-toolkit, React Native, HTML5, CSS3, Tailwind CSS, Responsive Design, Component-Based Architecture
Backend and APIs: Node.js, Express.js, Fast API, REST API Integration
Databases: MongoDB, MySQL, PostgreSQL
Tools and Practices: Git, GitHub, VS Code, Debugging, Cross-browser Compatibility, Performance Optimization, Agile Development

Experience

UNI Dream Solutions

January 2024 – Present

Front End Developer

Noida, UP

- Engineered responsive and scalable web interfaces using React.js, Redux, Next.js, and TypeScript, resulting in a 30% improvement in UI rendering performance.
- Architected a library of reusable component-based structures, which shortened development cycles by 20% for cross-functional teams.
- Integrated complex RESTful APIs and secure authentication flows (JWT/Auth0), ensuring seamless and secure communication between frontend services.
- Optimized frontend assets and state management, leading to a 25% reduction in initial page load times and enhanced user retention.
- Collaborated in Agile sprints, delivering critical production features 10% faster than project milestones while ensuring 100% cross-browser compatibility.

Magic EdTech

November 2022 – January 2024

Digital Media Developer

Noida, UP

- Optimized interactive web applications using JavaScript and CSS, achieving a 15% increase in cross-browser stability and performance.
- Implemented pixel-perfect responsive layouts that improved mobile user engagement by strictly adhering to UI/UX design specifications.
- Streamlined page performance by reducing DOM updates and optimizing asset loading, resulting in lower bounce rates and smoother user transitions.
- Partnered with designers to enhance feature usability, contributing to a more intuitive interface for educational digital platforms.

Projects

“E-CLINIC” A Doctor Appointment Management System | ReactJS, NodeJS and MongoDB

July 2025

- Designed a comprehensive patient management system that automated record-keeping for medical history and visit logs using ReactJS, Redux and MongoDB
- Integrated secure JWT and bcrypt authentication, reducing unauthorized access risks and ensuring HIPAA-compliant data practices.
- Developed dynamic forms for patient registration that cut administrative data entry time by providing a streamlined, user-friendly interface.
- GitHub Link- <https://github.com/vinayp9399/clinic-app-frontend>
- Live project link- <https://clinic-app-frontend.vercel.app/>

“FITPRO” A Fitness Tracking System | Next JS, NodeJS, Tailwind CSS and MongoDB

July 2025

- Built a fitness analytics dashboard using Next.js and Redux allowing users to visualize nutrition and workout progress through interactive data charts.
- Enhanced user retention by implementing a responsive UI that allows for seamless tracking across mobile and desktop devices.

- Secured user profiles and private health data using Node.js, JWT and bcrypt backend integrations.
- GitHub Link- https://github.com/vinayp9399/Fitpro_Fitnessapp
- Live project link- <https://fitpro-fitnessapp.vercel.app/>

“BIG COMMERCE” An E-Commerce Shopping Platform | ReactJS, Fast API and MongoDB **January 2025**

- Scaled an e-commerce platform by developing a high-concurrency Fast API and MongoDB backend to manage product catalogs and sales and using React and Redux.
- Optimized the checkout flow by building an efficient Shopping Cart and Wishlist system via RESTful APIs, improving the path-to-purchase for users.

- Live project link- <https://e-comwebsite-frontend.vercel.app/>

Education

Amity University

July 2017 – June 2021

B.Tech Electronics and Instrumentation

Noida, UP

A.S.N Senior Secondary School

April 2015 – March 2017

10th and 12th Standard

Delhi

Certification

MERN Full-Stack Development

January 2024 – June 2024

Uncodemy Institute

Noida, UP

- Did a 6 months training based NASCOM certified Internship in MERN full stack development with real world project implementation.
